

RZ10AT ATF Flush

RZ10AT ATF Flush is developed to clean automatic gearboxes and restore their optimal operation.

- Reliably removes resins, oxidized oil residues, operational deposits and impurities in the transmission oil circuit.
- Contains rust and corrosion inhibitors.
- Restores the transmission speed of the automatic transmission, being fast and smooth.
- Neutrally formulated to be harmless to metals, seals, friction materials and compatible with all automatic transmission fluids.
- Reduces friction and wear.
- Conditions seals and O-Rings.
- Restores the sensitivity of the valve body to avoid sticking of the valve body caused by sludge dirt.
- Helps to improve and extend transmission efficiency, smooth shifting performance and fuel economy.

Application:

- Gasoline and diesel engine auto/manual gearbox, all types of gearboxes such as DSG/CVT.

Usage direction:

Add directly into gearbox, start the vehicle and shift gears in turn, run for 20 minutes and then drain the oil. Or wash with professional cleaning equipment.

Our high-performance additives for gasoline and diesel engines ensure noticeable improvements in the properties of the engine in fuel or in engine oil.

Content: 250 ml

Content Carton: 24 cans

Typical characteristics

Property	Method	Unit	Value
Colour		-	Yellow-brown
Odor		-	Characteristic odour
Physical state		-	fluid
Kinematic viscosity	ISO 3104/3105	g/ml	3
Boiling point and boiling range		°C	180-280
Flash point	DIN EN ISO 2592	°C	65
Autoflammability		°C	250
Relative density		g/ml	0,814
Water solubility		-	Insoluble

These parameters are typical of current production. The data does not include any assurance of properties or the guarantee of suitability for a special application. Existing statutory provisions and ordinances, which relate to the handling and use of the products, must be observed by the recipient of our products.
