

RZ10PS Power Steering Flush

RZ 10PS Power Steering Flush agent is a cleaning product for high-performance steering system, which effectively cleans the oil and dirt in the power steering system, and reduces the residues in the system.

- Efficiently removes particles, sludge and carbon deposits in the steering system, such as inner line pipes, pump heads and valves.
- Has excellent anti-rust and anti-corrosion properties.
- Restores steering performance and reduces steering problems such as heavy steering, noise and wheezing.
- Neutrally formulated to concurrently dissolve all kinds of steering fluid and hydraulic oil.

Application:

- All types of hydraulic power steering systems.

Usage direction:

Add directly into power steering system, run engine idle and turn the steering wheel to the left and right intermittently for approximately 15 minutes, drain the fluid. Or wash with professional cleaning equipment for power steering system.

Our high-performance additives for gasoline and diesel engines ensure noticeable improvements in the properties of the engine in fuel or in engine oil.

Content: 250 ml

Content Carton: 24 cans

Typical characteristics

Property	Method	Unit	Value
Colour		-	Yellow-tan
Odor		-	Characteristic odour
Physical state		-	fluid
Kinematic viscosity	ISO 3104/3105	g/ml	3
Boiling point and boiling range		°C	180-250
Flash point	DIN EN ISO 2592	°C	65
Autoflammability		°C	250
Relative density		g/ml	0,814
Water solubility		-	Slightly soluble

These parameters are typical of current production. The data does not include any assurance of properties or the guarantee of suitability for a special application. Existing statutory provisions and ordinances, which relate to the handling and use of the products, must be observed by the recipient of our products.
