

RZ12D Diesel Multi-Clean

RZ 12D Diesel Multi-Clean is specially designed to meet the current emission control system with complete fuel system clean.

- Improves the operation and reduces maintenance of the DPF & emission control systems in diesel engine applications.
- Reduces the HC, CO and soot emissions.
- Reduces noxious exhaust gases.
- Reduces engine particle matters, cleans injectors, improves diesel combustion efficiency, fuel economy and engine efficiency to maximize DPF life.
- Has a good cleaning effect and keeps the entire fuel system (injectors) clean.

Application:

- Diesel engine fuel system (only used for diesel tank)

Usage direction:

Add directly into diesel tank, one bottle (300ml) treats for 60L diesel.

Our high-performance additives for gasoline and diesel engines ensure noticeable improvements in the properties of the engine in fuel or in engine oil.

Content: 300 ml

Content Carton: 24 cans

Typical characteristics

Property	Method	Unit	Value
Colour		-	brown
Odor		-	Characteristic odour
Physical state		-	Fluid
Kinematic viscosity	ISO 3104/3105	g/ml	1,6
Boiling point and boiling range		°C	180-250
Flash point	DIN EN ISO 2592	°C	63
Autoflammability		°C	>200
Relative density		g/ml	0,815
Water solubility		-	Slightly soluble

These parameters are typical of current production. The data does not include any assurance of properties or the guarantee of suitability for a special application. Existing statutory provisions and ordinances, which relate to the handling and use of the products, must be observed by the recipient of our products.
