

RZ20G Injection System Clean 8 in 1

RZ20G Injection System Cleaner 8 in 1 is the multi-effect maintenance agent for the entire gasoline and fuel system. It offers comprehensive protection and cleaning of the entire system. It removes carbon and adhesive deposits, binds water and protects against corrosion. It improves the octane number and reduces exhaust emissions. Improves performance and reduces fuel consumption.

It is suitable for vehicles that meet Euro VI emission standards.

- With the innovative PEA decarburizing formula, it removes carbon deposits on the valve, injector, spark plug and combustion chamber.
- Effectively removes deposits on valves and helps to delay the formation of new deposits
- Contains special components for water binding - quickly disperses the water in the fuel
- Excellent protection against rust and corrosion
- Increases the octane number
- Helps to clean the catalytic converter system to reduce exhaust emissions
- Improves combustion efficiency and fuel consumption
- Optimizes acceleration, power and performance

Application:

- Gasoline engine fuel system (only used for gasoline tank)

Usage direction:

For the first application to remove deposits, it is recommended to use 3 bottles in succession. For regular use, it is recommended to use the additiv every 5000 kilometers.

Add directly into gasoline tank, one bottle (300ml) treats for 60L gasoline.

Our high-performance additives for gasoline and diesel engines ensure noticeable improvements in the properties of the engine in fuel or in engine oil.

Content: 300 ml

Content Carton: 24 cans

Typical characteristics

Property	Method	Unit	Value
Colour		-	Yellow-orange
Odor		-	Characteristic odour
Physical state		-	Fluid
Kinematic viscosity	ISO 3104/3105	g/ml	1,5
Boiling point and boiling range		°C	130-220
Flash point	DIN EN ISO 2592	°C	64
Autoflammability		°C	200
Relative density		g/ml	0,7956
Water solubility		-	Slightly soluble

These parameters are typical of current production. The data does not include any assurance of properties or the guarantee of suitability for a special application. Existing statutory provisions and ordinances, which relate to the handling and use of the products, must be observed by the recipient of our products.
