

RZ20G Injection System Clean

RZ 20G Injection System Clean is specially formulated to remove varnish, gum, and other deposits from fuel injectors and intake valves.

- Removes carbon deposits on valve, injector, spark plugs and combustion chamber to delay the formation of carbon deposits.
- Restores lost power, improves fuel economy, and reduces emissions.
- Protects against rust and corrosion.
- Helps to lubricate engine valve and protect it from premature wear.
- Improves acceleration, power and performance.

Application:

- Gasoline engine fuel system (only used for gasoline tank)

Usage direction:

Add directly into gasoline tank, one bottle (300ml) treats for 60L gasoline.

Special feature:

- TÜV certified

Our high-performance additives for gasoline and diesel engines ensure noticeable improvements in the properties of the engine in fuel or in engine oil.

Content: 300 ml

Content Carton: 24 cans

Typical characteristics

Property	Method	Unit	Value
Colour		-	Yellow-orange
Odor		-	Characteristic odour
Physical state		-	Fluid
Kinematic viscosity	ISO 3104/3105	g/ml	1,5
Boiling point and boiling range		°C	130-220
Flash point	DIN EN ISO 2592	°C	64
Autoflammability		°C	200
Relative density		g/ml	0,7956
Water solubility		-	Slightly soluble

These parameters are typical of current production. The data does not include any assurance of properties or the guarantee of suitability for a special application. Existing statutory provisions and ordinances, which relate to the handling and use of the products, must be observed by the recipient of our products.
