

## RZ20PS Power Steering Protector

RZ20PS Power Steering Protector is a high-performance and fully-effective concentrated steering system maintenance agent. It can maintain stability of power steering system, enhance steering sensitivity, and provide comprehensive protection for steering system.

- Effectively protects steering system pump shaft and reduces wear of the parts.
- Maintains and enhances the lubricating performance of steering fluid, and maintains the long-term effectiveness of steering fluid.
- Protects the seals and O-rings of steering system to reduce leakage.
- Excellent corrosion resistance to prevent contamination and corrosion of internal parts of steering system.

### Application:

- All types of hydraulic power steering systems.

### Usage direction:

Add directly into power steering system. Or wash with professional steering system cleaning equipment.

Our high-performance additives for gasoline and diesel engines ensure noticeable improvements in the properties of the engine in fuel or in engine oil.

**Content:** 150 ml

**Content Carton:** 24 Bottles

### Typical characteristics

Property	Method	Unit	Value
Colour		-	Dark brown
Odor		-	Characteristic odour
Physical state		-	Oily
Kinematic viscosity	ISO 3104/3105	g/ml	58
Flash point	DIN EN ISO 2592	°C	105
Relative density		g/ml	0,92
Water solubility		-	Insoluble

These parameters are typical of current production. The data does not include any assurance of properties or the guarantee of suitability for a special application. Existing statutory provisions and ordinances, which relate to the handling and use of the products, must be observed by the recipient of our products.
