

RZ 22D Diesel System Clean

RZ 22D Diesel System Clean is designed fuel treatment for diesel engines that reduces soot emissions.

- Cleans injectors and improves diesel fuel combustion.
- Protects the fuel system against premature wear and damage by reducing rust and corrosion formation.
- Optimizes combustion and increases the amount of oxygen in the combustion chamber to lower fuel consumption.
- Promotes complete burn-off of soot particles during driving.
- Harmless to turbochargers, catalytic converters and soot filters.
- Ensures efficient output of engine power.

Application:

- Diesel engine fuel system (only used for diesel tank)

Usage direction:

Add directly into diesel tank, one bottle (300ml) treats for 60L diesel.

Special feature:

- TÜV certified

Our high-performance additives for gasoline and diesel engines ensure noticeable improvements in the properties of the engine in fuel or in engine oil.

Content: 300 ml

Content Carton: 24 cans

Typical characteristics

Property	Method	Unit	Value
Colour		-	Pale yellow
Odor		-	Characteristic odour
Physical state		-	Fluid
Kinematic viscosity	ISO 3104/3105	g/ml	1,6
Boiling point and boiling range		°C	180-280
Flash point	DIN EN ISO 2592	°C	63
Autoflammability		°C	200
Relative density		g/ml	0,81
Water solubility		-	Slightly soluble

These parameters are typical of current production. The data does not include any assurance of properties or the guarantee of suitability for a special application. Existing statutory provisions and ordinances, which relate to the handling and use of the products, must be observed by the recipient of our products.
