

RZ63E Intake System Cleaner

RZ63E Intake System Cleaner cleans through the plenum, ports and valves of the intake system.

- Specially formulated to remove carbon residue, oil deposits, dirt and other pollutants finely.
- Safely and rapidly removes deposits from the air intake, throttle body, plenum chamber, engine management sensors, valves and piston rings.
- Removes heavily coked components such as glow plugs and injectors.
- Improves combustion performance and reduces harmful emissions.
- Helps to eliminate rough idle, hard starting, loss of power and pinging.
- Restores power and improves fuel economy.

Application:

- Gasoline and diesel engine intake system.

Usage direction:

Wash with professional equipment, operate by professional technicians and follow the equipment operating instructions for details.

Our high-performance additives for gasoline and diesel engines ensure noticeable improvements in the properties of the engine in fuel or in engine oil.

Content: 450 ml

Content Carton: 24 cans

Typical characteristics

Property	Method	Unit	Value
Colour		-	colorless
Odor		-	Characteristic odour
Physical state		-	fluid
Kinematic viscosity	ISO 3104/3105	g/ml	1
Boiling point and boiling range		°C	56
Flash point	DIN EN ISO 2592	°C	-18
Relative density		g/ml	0,831
Water solubility		-	miscable

These parameters are typical of current production. The data does not include any assurance of properties or the guarantee of suitability for a special application. Existing statutory provisions and ordinances, which relate to the handling and use of the products, must be observed by the recipient of our products.
