

RZ800 5W20 EC Engine Oil

RZ800 5W20 EC is high-performance energy-conservative fully synthetic motor oil for modern generation car engines. It helps to keep the engine clean by minimizing deposit formation. Its excellent sludge and deposit control enable the engine to serve long. It has superior temperature stability and oxidation-resistance as well as fast cold starting property and excellent anti-wear property. It provides consistent rust protection caused by harmful acids generated by engine contaminations.

Compatibility:

- ACEA A1 / B1
- Jaguar Land Rover STJLR.03.5004
- Ford WSS-M2C925-A/ -B

Advantages:

- Best fuel economy performance
- Low oil consumption and low evaporation loss
- Very good cold-starting properties and rapid engine lubrication
- Stable lubricating film, even with hot oil and under excessive loads
- High level of oxidation protection by means of selected HC synthetic oils and special additives

RZ800 100% Synthetic Motor Oil is especially suitable for use in gasoline and diesel engines of mid/high-end home or commercial cars and passenger cars. Blended with high-quality PAO fully synthetic base oil and additive technology.
